

Author Gallery - Upgrade Week Plan

Developer 2 (Frontend Co-Lead) Action Plan

TARGET ROLE: FRONTEND AUTHOR STUDIO & SOCIAL

1. Scope of Work & Responsibilities

- **Primary Focus:** Advanced Author Writing Studio (WYSIWYG), AI Writing Assistant Side Drawer, Chapter Comments & Quote Highlights, Discussion Hub, Visual Dashboard Analytics.
- **Git Feature Branch:** feature/author-studio-community
- **Target Workplaces:** frontend/src/components/AuthorComponents, frontend/src/components/BookComponents, frontend/src/pages

2. Git & Collaboration Commands

```
# 1. Clone repository (if first time)
git clone https://github.com/ManishBhattPC/Author-Gallery.git && cd Author-Gallery
# 2. Switch to main & fetch latest
git checkout main && git pull origin main
# 3. Create your feature branch
git checkout -b feature/author-studio-community
# 4. Save work & push
git add . && git commit -m "feat: added rich text editor and AI drawer"
git push origin feature/author-studio-community
```

3. Detailed File Implementation Checklist

- **[NEW] frontend/src/components/AuthorComponents/RichTextEditor.jsx:** Full WYSIWYG editor with bold/italics/headings, word count goal progress, auto-save timer, and chapter ordering.
- **[MODIFY] frontend/src/pages/WriteBook.jsx:** Embed the new RichTextEditor into the book creation and chapter drafting workspace.
- **[NEW] frontend/src/components/AuthorComponents/AIWritingAssistantDrawer.jsx:** Slide-over drawer inside editor for grammar suggestions, plot prompts, readability score, and chapter summarization.
- **[NEW] frontend/src/components/BookComponents/ChapterComments.jsx:** Comment section under book chapters for reader feedback and discussion.
- **[NEW] frontend/src/components/BookComponents/QuoteHighlightModal.jsx:** Selection popup modal to highlight memorable book quotes and share directly on Twitter or WhatsApp.
- **[NEW] frontend/src/components/DashboardComponents/AnalyticsCharts.jsx:** Visual charts (Recharts / Chart.js) for daily view trends, download spikes, and rating distribution.
- **[MODIFY] frontend/src/pages/AuthorDashboard.jsx:** Integrate visual analytics charts and milestone achievements.
- **[NEW] frontend/src/pages/DiscussionHub.jsx:** Book Club and community forum view with topic threads, filters, and replies.

4. Verification & Testing Steps

- Test RichTextEditor auto-save timer (e.g. saves draft every 15 seconds).
- Test responsiveness of AI Writing Assistant slide-over drawer.
- Ensure quote sharing opens WhatsApp / Twitter web intent URLs correctly.
